

Using the Manual Search Engine

An explanation of the following operations is provided below. Click the menu to jump to an explanation of each item.

- ▶ [Search by category](#)
- ▶ [Search by keyword](#)
- ▶ [Refine your search](#)
- ▶ [Using the separator](#)

■ Search by category

1. Select a “Main category”.
2. Select a “Sub category”.
3. Click the relevant manual name to open a PDF version of that manual.

■ Search by keyword

1. Enter a search keyword in the search area, and click [Search] or press [Enter].
2. Click the relevant item from the search results that display to open a PDF version of the manual.

Note: When performing a search for multiple terms (AND search), each term entered should be separated by a one-byte or double-byte space.

■ Refine your search

1 Select a category.

2 The selected category displays at the “Limit search to:” field, allowing a keyword search to be performed within this category.

3 Click [Reset] to clear the “Limit search to:” field.

Note: It is possible to perform a search within the main category only.

Hit Words	Title	Page	Manual
